

Sail through the HR complexities with TCS Chroma™

TCS's cloud based hire to retire
workforce management solution

CHROMA™ - A Snapshot

throughAI Talent - Insights for CHRO

Step into the future of HR management with throughAI, our AI enabled Talent-as-a-Service platform offers precise talent insights driven by TCS' advanced AI/ML framework. Leveraging prebuilt models, organizations gain AI-generated predictions and recommendations to proactively address challenges, minimizing implementation costs and reducing timelines for AI and Machine Learning engagements. Designed for simplicity and minimal customer involvement, it empowers informed decision-making, and enhances downstream HR strategies..

- TCS AI/ML Framework
- Certified Data Scientists
- Self Service
- Secure Ecosystem
- Prebuilt Models

Talent Acquisition

CHROMA™ Talent Acquisition streamlines Recruitment and Onboarding with a dedicated career portal, offering an enhanced experience for candidates, recruiters, hiring managers and third-party vendors. It includes intelligent job recommendations, talent matching, digital offers, seamless transition, and access to third-party vendors for sourcing and verification.

Recruitment

Onboarding

Benefits

- Reduce time to hire with process automation
- Increased process compliance and candidate assessments through pre-interview assessment, multi-round interview scheduling, and feedback capture
- Faster transition from Candidate to Employee with integrated onboarding
- Reduced turnover by ensuring better initial fit for employees' rights

Talent Development

CHROMA™ Talent Development facilitates collaborative learning and competency-building initiatives, nurturing a strong leadership pipeline. It empowers employees to improve skills for short-term goals and long-term career growth through personalized courses. Career Management supports growth aspirations with tailored development plans, while Succession Planning identifies and recommends potential leaders for key positions, ensuring smooth business continuity.

Learning Management

Career Management

Benefits

- Personalized learning recommendation
- Anytime, anywhere learning
- Align learning objectives to corporate strategies
- Enhanced internal mobility
- Improved organizational agility

Talent Core

CHROMA™ Talent Core facilitates efficient, future-ready organization with Workforce Planning and budgeting, leveraging cognitive intelligence for headcount forecasting. Organization and People Management ensures streamlining of complex organizational structure and reporting hierarchies, along with managing employee lifecycle events. Leave and Attendance Management ensures real-time attendance processing along with geo-fencing and geo-tagging and offers comprehensive leave rules configurability to address any organization-specific needs with seamless integration with the payroll system.

Workforce Planning

Attendance Management

Organization Management

People Management

Leave Management

Benefits

- Improves efficiency, effectiveness and productivity by matching employees with the right skills to the job
- Intelligent workforce planning
- Offers a comprehensive view of employee work calendar with shift details, leaves and rest days
- Eliminates manual follow-ups for approvals and routing of documents
- Simplifies complex organization hierarchies and reporting structures
- Facilitates budgeting supporting organisation growth, changes, and M&As
- Ensures data integrity
- Enhance employee experience
- Automates paper-intensive and time-consuming employee life cycle processes
- Facilitates insight-based decision making with comprehensive reports and dashboards
- Reduces paperwork, saves time, and offers customization options
- Provides accurate leave balances and leave trends information
- Ensures compliance with company leave policies through inherent rules

Talent Performance

CHROMA™ Talent Performance offers a simplified and transparent Performance Appraisal system with agile goal-setting, continuous coaching and feedback, performance check-ins, 360-degree feedback, and flexible multi-level evaluations linked to employee compensation. Rewarding and recognizing employees' contributions strengthens relationships fostering motivation through peer-to-peer and team recognition.

Performance Appraisal

Benefits

- Anytime, anywhere access
- Ease of operations
- Upskilling, cross skilling facilitating employee sustainability

Rewards & Recognition

- Promote employee happiness and foster a culture of self-improvement
- Cultivate a positive work culture through appreciation of good practices
- Improve alignment with pay-for-performance practices through rating driven increment computations

Talent Engagement

CHROMA™ Talent Engagement enhances teamwork and boosts business value with top-notch collaboration tools. The Collaborative Workspace encourages social interaction through forums, communities, polls, and chats. Engagement and Wellness programs prioritize employee well-being with challenges, events, and health management, fostering a culture of connectivity.

Collaborative workforce

Benefits

- Encourage self-development, social-learning and discovery with a collaborative social platform
- Empower employees by intelligent collaboration
- Enhance team cohesiveness and inter-personnel relationships

Engagement and wellness

- Enhance employee health and wellness experience
- Simplified appointment booking process
- Mitigate risks while ensuring business continuity with hybrid workforce
- Elevated employee morale and belongingness

Talent Pay

CHROMA™ Talent Pay streamline claims processing with a uniform approval process aligned with organization policies. Its AI-driven claims outlier detection speeds up disbursement and saves verification time. Benefit Management attracts and retains top talent with tangible benefits, setting organizations apart from competitors. Compensation Management enables planning, control, and distribution of compensation by benchmarking against market data for competitiveness and equity.

Expense Management

Benefits Management

Payroll Management

Compensation

Benefits

- Ensures consistent organization policy for employee expense reimbursements
- Rapid claims submission
- Track budget utilization in real time

- Uniform organization policy for employee expense reimbursements
- Simple and quick claims submission
- Effective mix of monetary and non-monetary rewards

- Achieve faster business benefits and improved ROI
- Single point of accountability
- Multi-directional benchmarking against salary survey insights

- Better planning and control of expenses by ensuring that compensation is within budget

Leading Indian Non-Banking Financial Company unifies HR solution

Business Challenges

Leading Indian Non-Banking Financial Company pursued a unified solution to streamline HR and talent functions by addressing the following challenges.

- Legacy systems have limited self-service capabilities
- Absence of an integrated and digitalized cloud-based solution
- Non-availability of timely and accurate information due to disparate systems managed by different vendors

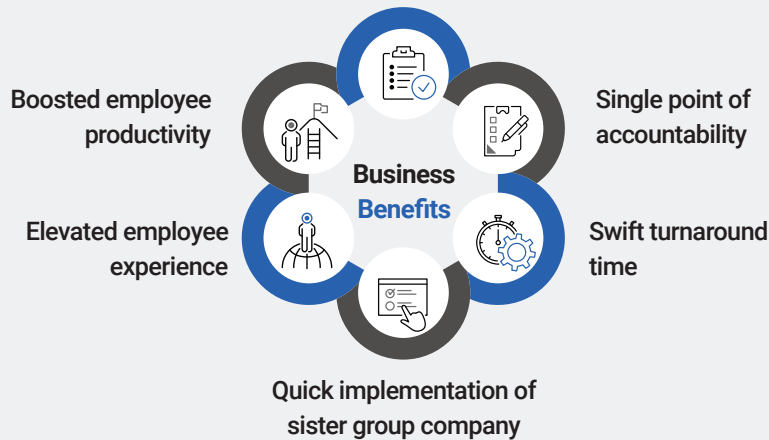

TCS Solution

Leading Indian Non-Banking Financial Company selected CHROMA™, TCS' cloud-based HR and talent management solution for unifying and digitizing end-to-end processes on a unified platform.

- Enterprise-wide visibility with a modular & scalable solution
- Enhanced decision-making with embedded reporting
- Facilitating regular check-ins between employee & manager
- Achieve seamless integration with other systems
- Ensure superior employee experience with self-service tools
- Provides data-driven insights for both leadership & employees

Unified and digitalized processes

We have unified and digitized HCM processes on cloud with TCS CHROMA™

Chief of Human Resources & Administration

Business Need

Leading shipping house offering end-to-end shipping logistics expertise connected to more than 600 ports in 120 countries worldwide, sought a system to tackle HR challenges and allow HR personnel to focus more on strategic business pursuits.

- Manual HR processes
- Diverse business verticals
- Lack of business self-service tools

Business Benefits

- Derive actionable insights
- Promote employee well-being
- Elevate employee experience
- Make informed decisions

Leading Logistics and Supply Chain Firm Digitizes HR Processes

TCS Solution

Leading Logistics & Supply Chain Company implemented CHROMA™ Talent Management solution on the cloud, to standardize, automate and consolidate its HR processes across all group companies.

Personalized learning recommendations help employees advance their skills and competencies

Self-service and mobile-enabled leave and attendance system along with continuous feedback empowers employees

Transparent Performance Appraisal system enables employees to maximize their performance

The health management feature helps HR to keep an up-to-date record of employee health

Reports, automated reminders, notifications, and bulk uploads make it easier for HR to use data and improve overall employee experience

“

With Chroma™, we were able to digitize and consolidate our talent management processes thereby improving overall employee experience

Head of Human Resource

”

CHROMA™

Simplifies HRMS for Oilmax Energy

Challenges

Oilmax Energy Private Limited, a leading oil and gas firm operating in India, Romania, and Nigeria with over 15 years of industry experience, sought to standardize HR processes to counteract the following challenges..

- Experienced difficulties with day-to-day HR tasks
- Manual paper-based procedures
- Managed multiple systems to gather, record and store HR data
- Delays in payments and pay slip errors from existing payroll vendors
- Expansion into multiple locations necessitated the adoption of standardized HRMS

Solution

Oilmax leverages CHROMA™ to digitize its manual HR processes for the benefit of both HR and employees by centralizing data to enhance decision making.

- Streamlined and normalized HR practices
- Digitalized HRMS process
- Real-time and accurate data were centralized, providing reports for decision-making
- Streamlined HR operations led to a more efficient and engaged workforce
- Manual intervention for HR team was eliminated, allowing more time for strategic engagement

Business Benefits

Simplified and automated HR workflows

Error-free pay slips and on-time payrolls

A single system to manage employee events & performance

Timely reports and email notifications

A centralized view with 'Act Now' function for approvals

“ Now we have a one single system to manage all our HR process with CHROMA™ thereby elevating overall employee experience.

Pradeep Mohanty, Head HR

”

CHROMA™ is a cloud-based hire-to-retain talent management platform addressing core and strategic talent needs of organizations. The solution aims to automate the complete talent lifecycle, integrate intelligent insights, enhance the human experience, promote workforce well-being, and optimize productivity.
