

Tata Consultancy Services

Investor Presentation

August 2024

Forward Looking Statements

» Certain statements in this release concerning our future prospects are forward-looking statements. Forward-looking statements by their nature involve a number of risks and uncertainties that could cause actual results to differ materially from market expectations. These risks and uncertainties include, but are not limited to our ability to, manage growth, intense competition among global IT services companies, various factors which may affect our profitability, such as wage increases or an appreciating Rupee, our ability to attract and retain highly skilled professionals, time and cost overruns on fixed-price, fixed-time frame contracts, client concentration, restrictions on cross-border movement of skilled personnel, our ability to manage our international operations, reduced demand for technology in our key focus areas, disruptions in telecommunication networks, our ability to successfully complete and integrate potential acquisitions, liability for damages on our service contracts, the success of the companies in which TCS has made strategic investments, withdrawal of governmental fiscal incentives, political instability, legal restrictions on raising capital or acquiring companies outside India, unauthorized use of our intellectual property, cyber attacks or security breaches, pandemics, natural disasters and general economic conditions affecting our industry. TCS may, from time to time, make additional written and oral forward-looking statements, including our reports to shareholders. These forward-looking statements represent only the Company's current intentions, beliefs or expectations, and any forward-looking statement speaks only as of the date on which it was made. The Company assumes no obligation to revise or update any forward-looking statements.

Tata Consultancy Services

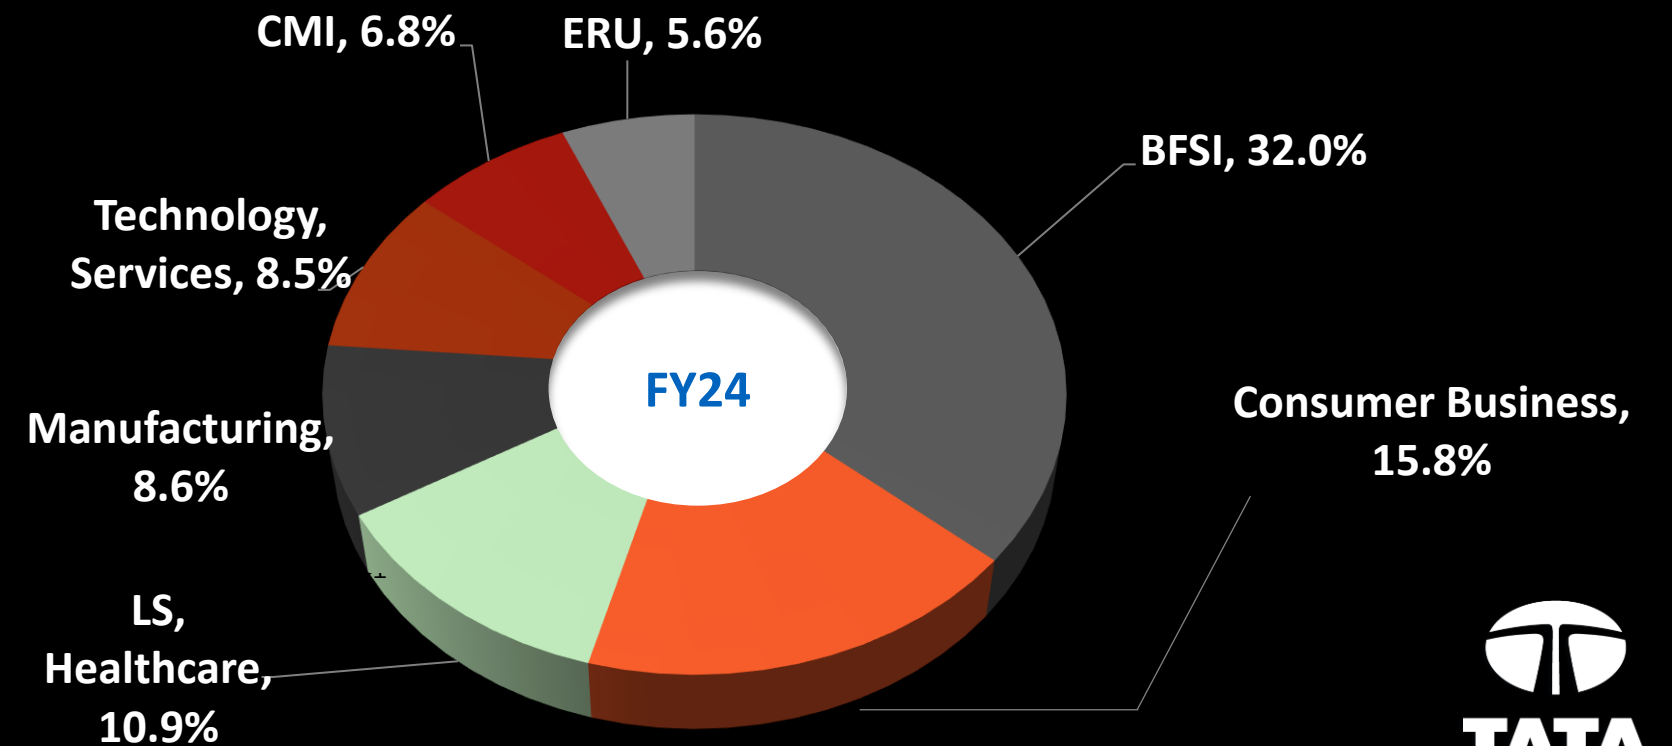

We Are...

A global IT services, consulting and business solutions leader partnering with the world's leading businesses in their transformational journeys

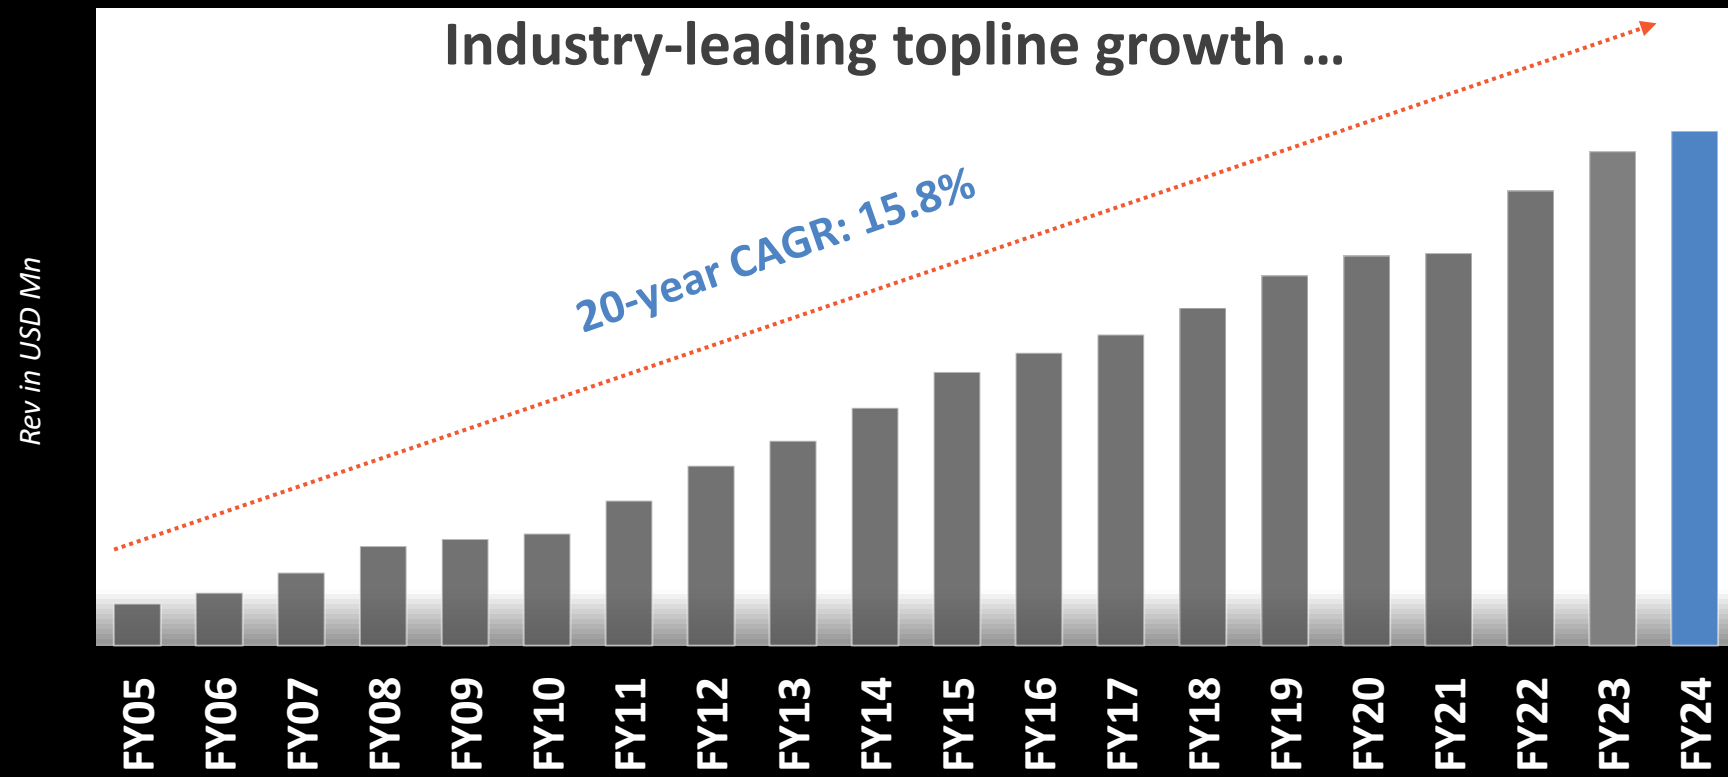

Revenue breakup by Geo

Revenue breakup by Industry

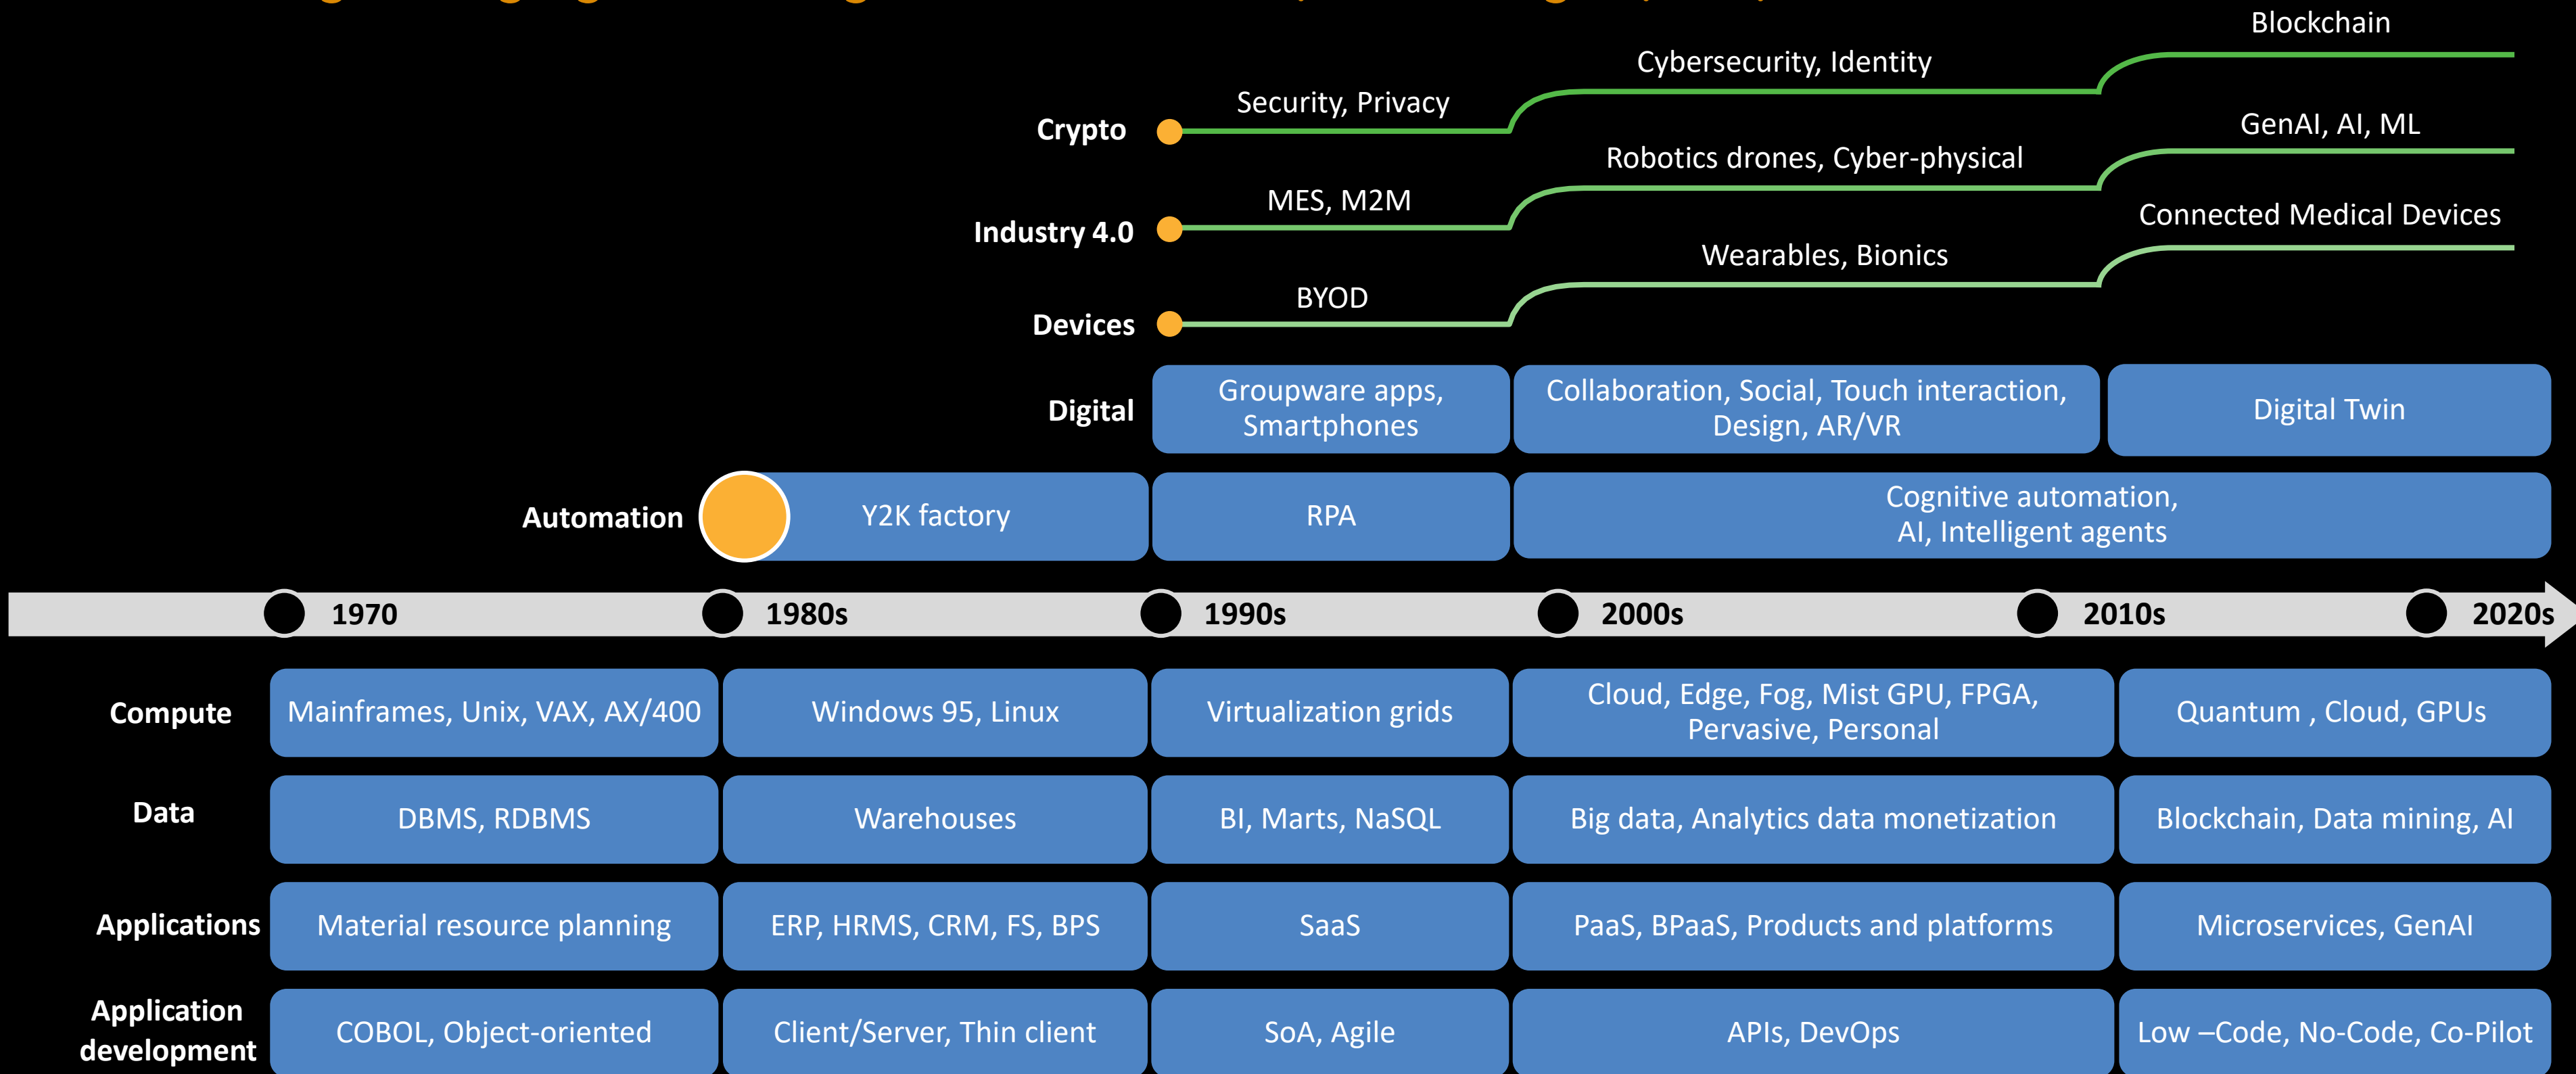

The Journey So Far

Leading through 56 years of technology change

Embracing emerging technologies to transition from being a fast follower to a leader

Drivers of growth

Key Differentiators:

Unmatched contextual knowledge

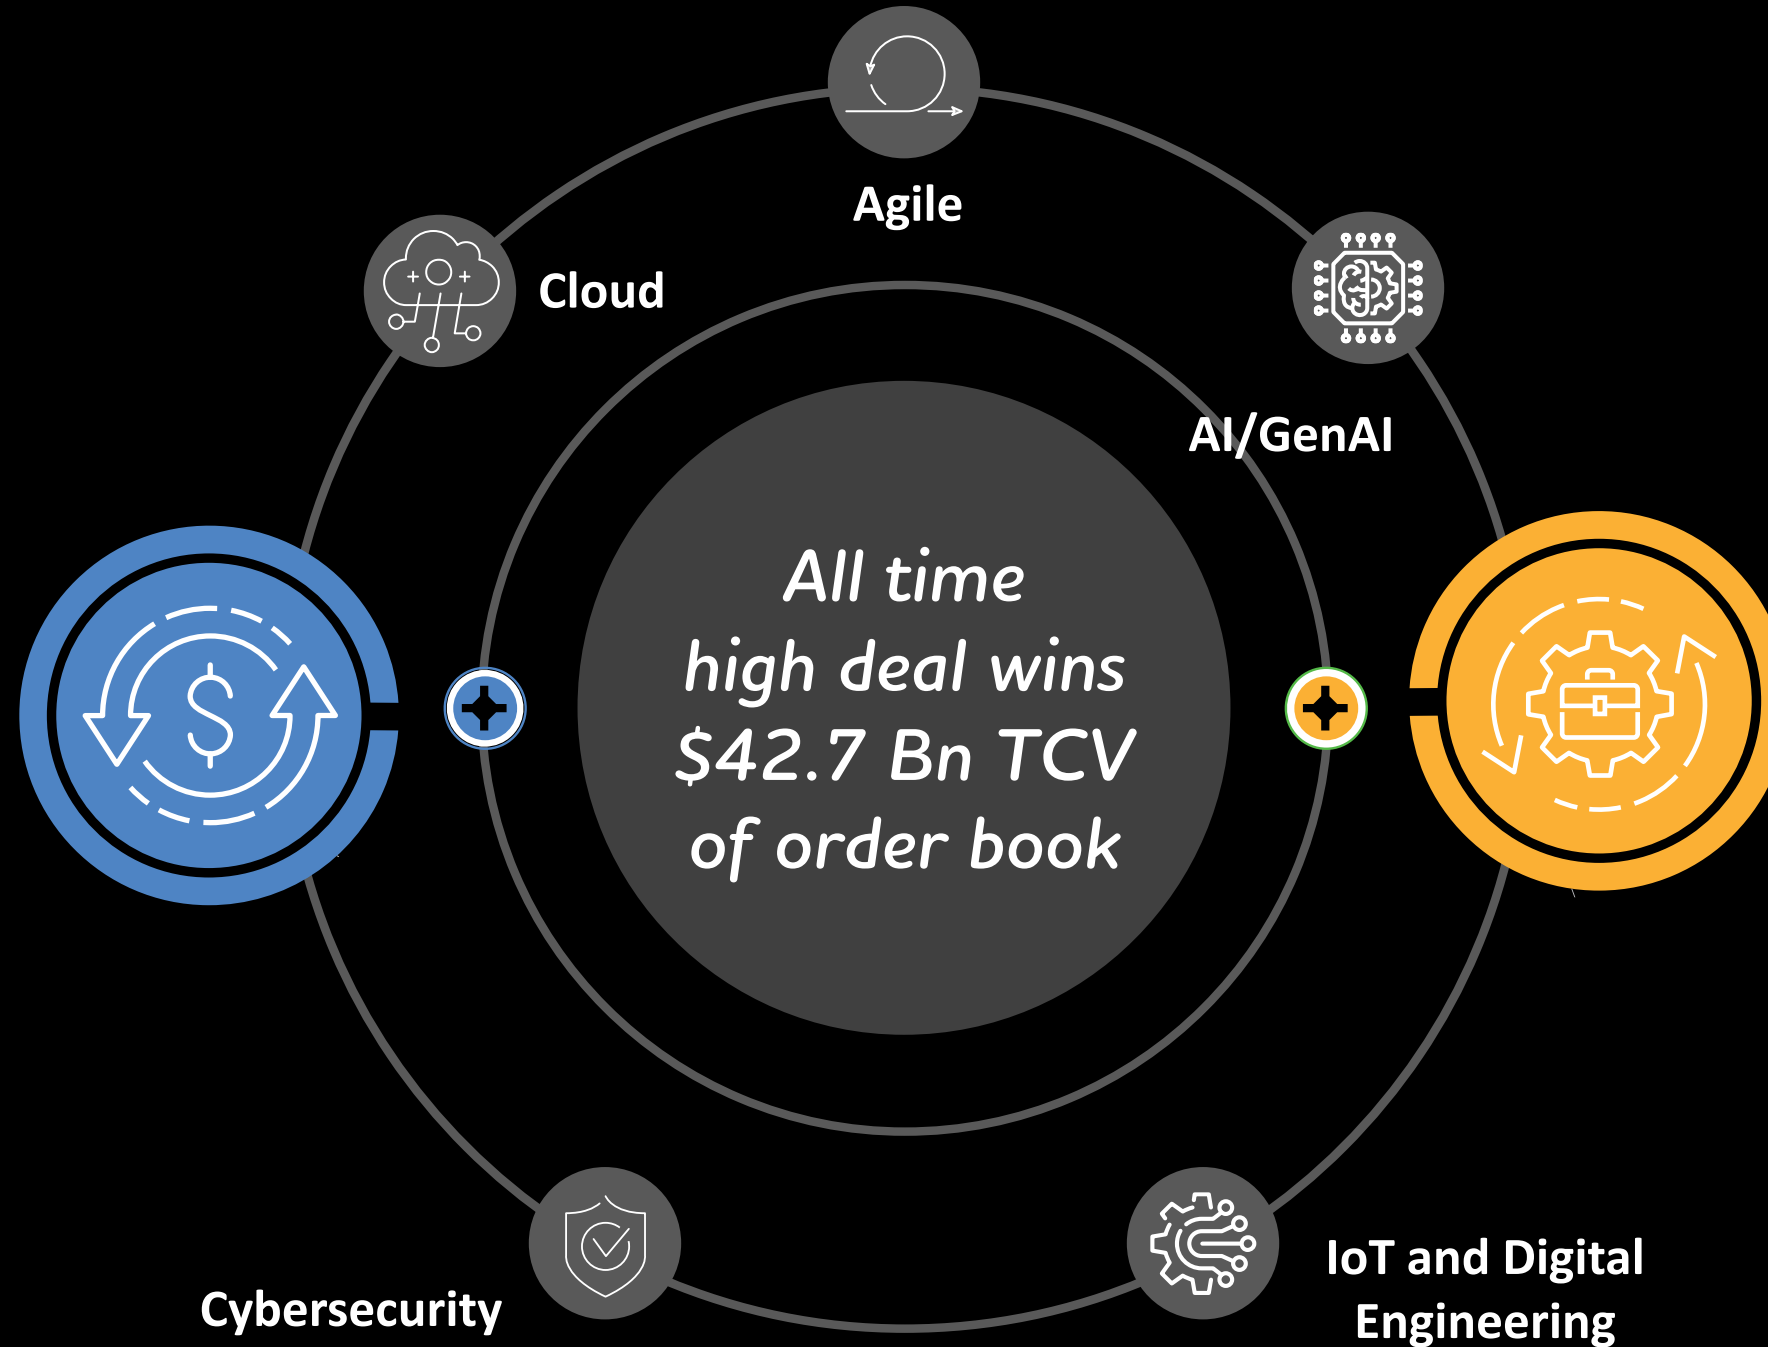

Cutting-edge technology and talent

Unique customer-centricity

Holistic solutions for enterprise value

Transformative partnership

- ### Cost Optimisation
- Vendor Consolidation & multi-services deal
 - AI/ML transformed Leaner & resilient operating models
 - Managed Services Model
 - Real time operational visibility

- ### Business Transformation
- M&A Integration & Divestures
 - Supply Chain Modernization
 - GenAI led New Business Model Enablement
 - Customer & Employee Experience Transformation

Investments

Investing in Human Capital

Highlights and recognition

- TCS wins the Clarivate South Asia Innovation Award 2024 in Information Technology category
- TCS Recognized with Asia IP Elite Award 2024 for being an Exemplar of IP Value Creation
- 6 TCS inventions shortlisted for inclusion in Indian Patent Office (IPO) compendium featuring the Top IP Driven Solutions for addressing the need for the Sustainable Development Goals (SDGs)
- TCS won the prestigious 'ET Datacon' Award 2024 in the category 'Automated Data Management'

Frameworks: tcs Connected Universe Platform tcs Datom™ tcs Daezmo™ tcs Dexam™

Offerings in AI-ML, including GenAI

TCS AI WisdomNext™

- TCS AI WisdomNext™ is a unique AI platform that aggregates multiple GenAI services into a single interface and empowers organizations to rapidly adopt GenAI technologies
- It allows businesses to do so at scale, at lower costs, and in compliance with regulatory guardrails
- The platform allows for real-time experimentation with GenAI solutions from different vendors, and with internal and open-source LLM models
- This industry-first platform allows customers to experiment with multiple GenAI models to rapidly build valuable and cost-effective solutions

TCS Cognix™

- Helping enterprises achieve a competitive edge through cognitive operations
- An AI-driven human-machine collaboration suite.
- Ecosystem of pre-built solutions to accelerate digital transformation
- Addressing the entire breadth of IT and business operations, across industries
- Nearly 700 value-builders deployed across more than 325 customers
- Transforming operations by embedding multi-modal AI-ML, GenAI, machine vision, and conversational AI across the business

TCS IoT Bringing Life to Things™

- Bringing Life to Things™ IoT business framework for exponential value creation across manufacturing, CPG, retail, utilities, life sciences, energy, and high tech
- Industry-specific roadmap and curated use cases help customers adopt GenAI, IoT, AI, and Digital Twin technology at the enterprise level across the functions of productization and servitization
- Transforming factory operations and field services by leveraging GenAI
- Bringing Life to Things Lab launched in Cincinnati to support customers with rapid prototyping, experimentation, and large-scale implementation of AI, GenAI, and IoT engineering solutions

TCS Datom™ TCS Dexam™ TCS Daezmo™

- TCS Datom™ | Data for AI Strategy: Assesses and baselines data and AI maturity and formulates interventions and strategy levers
- TCS Daezmo™ | Enterprise Data Platform: Collects, consolidates, curates, conserves, controls, and consumes data for business
- TCS Dexam™ | Data as a Product: Data exchange and marketplace platform that adapts data assets for new-age enterprise needs and business models
- Data Pipeline for AI: Data preparation that trains AI and GenAI models for intelligence
- Data Mastering for AI: Establishes source of truth, provides linkages to transactional data to run AI

TCS Strategic Responses to Opportunities and Threats

Opportunity / Threat

- Macroeconomic uncertainty and geopolitical volatility impacting decision making and prompting an increased mix of cost optimization and cloud transformation led deals and reduced discretionary spend

- Greater interest in using technology to drive business growth and differentiation

TCS Approach

- Proven track record in helping enterprises reduce their cost of operations.
- Proactive pitching of IT and business operating model transformations that not only deliver greater efficiency, enhance enterprise agility, resilience and better output.
- Leveraging full services capability and deep client relationships to propose product-aligned operating models.
- Use of TCS Cognix™ to accelerate operations transformation, using over 600 pre-built automation components that infuse AI/ML and other technologies into IT and business processes to reduce human intervention, increase velocity and productivity.

- Focused on developing contextual knowledge and applying that for inside-out transformations.
- Continued investments in Research and Innovation, TCS Pace Ports, and Intellectual Property.
- Dedicated practice with domain experts to bring together TCS' differentiated capabilities from across the organization to stitch together comprehensive solutions.
- Proactive pitching of solutions to customers' most pressing business problems.
- Nation building programs which add to capabilities and credentials
- Deepened partner ecosystem for joint go-to-market strategy.

Outcomes

- Strong deal flow resulting in a robust order book that gives better visibility of medium to long-term growth.
- Market share gains in vendor consolidation led deals.
- Efficiency gains helping fund client's transformation programs in some instances.
- TCS Cognix recognized as a means of driving quicker realization of RoI.

- Expansion of addressable market.
- Higher quality revenue, lending margin resilience.
- More deeply embedded in the client's business.
- Engaging with a broader set of buyers in the client organization.
- Higher visibility within C-Suites.

TCS Strategic Responses to Opportunities and Threats

Opportunity / Threat

- Strategic technology investments

- Greater acceptance of as-a-Service platforms

TCS Approach

- Set up the AI.Cloud unit bringing both Cloud and AI capabilities together to drive transformations for the customer under a 'Responsible AI' framework; invested in Intrapreneurial teams to discover the art of the possible.
- Continued investment in skill building, certifications, credentials, IP and accelerators.
- Made available TCS products and solutions on public clouds.

- Strengthened alliances and launched new offerings around the popular and new SaaS products.
- Helped Independent Software Vendor' clients upgrade their products to launch new SaaS versions.
- Partnering with product manufacturers to help launch innovative as-a-Service offerings using TCS Bring Life to Things IoT framework.

TCS IP:

- Promoted SaaS versions of in-house product portfolio; now available on hyperscaler platforms.
- Used IP portfolio to launch new platforms that bundle IP and shared services on the cloud.

Outcomes

- Strong growth in cloud migration and transformation revenues.
- Working on 250+ PoCs and PoVs in Assist and Augment use cases, few programs moving into production.
- Top tier partner to each of the hyperscalers.
- Preferred partner to clients seeking to use cloud native capabilities to power their business transformation.
- Over half of the workforce trained in AI/ML and GenAI technologies.

- Outperformance and differentiated growth compared to peers.
- Stronger win-win partnerships.
- Expansion of addressable market.
- Strong growth in SaaS sales
- Platforms drive stickier relationships, with long term revenue visibility.
